

Monitoring report of No-Scalpel Vasectomy Camp cum Training at Urban Family Welfare Centre, Porompat (23rd to 27th March'10)

1) Monitoring Team

- (i) Dr. Y. Ibechaobi Devi - Nodal Officer Family Planning, Family Welfare
- (ii) Dr. Bimola Devi - Nodal Officer Training, Family Welfare
- (iii) Dr. Kh. Latashori Devi - State Facilitator, RRC, Guwahati
- (iv) Mrs. H. Anuradha Devi - State Mass Media Officer, Family Welfare
- (v) Miss Kiranmala Thangjam - State BCC/IEC Consultant, NRHM
- (vi) Miss Rinabai Salam - State HRD Consultant, NRHM

2) Date of Visit: 23rd March'10

3) Observations made:

- Before the Camp, the IEC Unit of Imphal East interacted and motivated the ASHAs (20 Nos), ANMs and Pharmacists of Keirao Bitra Block.
- Due to lack of time, the officials didn't motivate all the ASHAs. Some of them were informed through phone.
- Leaflets of NSV were distributed to the ASHAs and ANMs before the camp and to the clients during the camp.
- Less involvement of the Block Programme Management Unit and the ASHAs resulting in poor registration of Clients (i.e. 50 Clients) and on the 1st day 6 Clients turn-up.
- Pre-counselling, Counselling and Post-counselling conducted by the IEC team
- All the 6 clients on the 1st day were motivated by pharmacists and ANMs only.
- Ricksaw-wallas who had availed of the facility in recent years also motivated clients.
- Logistics arrangement on the 1st day was poor.
- NSV incentive (Rs. 1100/- per clients) was paid on the spot.
- Out of 4 MOs trainees only 03 MOs trainees (from PHC Lamlai, PHC Andro and PHC Nongpok-keithelmanbi) were undergoing training and one MO trainee was absent (from PHC Sawombung). MOs trainees were not intimidated well in advance about the training.
- Out of two trainers only Dr. Nabakanta Sharma, State Trainer NSV, JN Hospital, Porompat was present.
- Autoclave machine was not functional and lighting system in the OT room was poor.

4. Recommendation & Suggestions: The State Monitoring team had discussion with the District team comprising of Dr. Momota, CMO, IE, Dr Tilotama, DFWO, IE, Mrs Roma, District Media Officer and Mrs. Romola, District Extension Educator IE on the following issues:

- Blood, Urine and HIV check up to be included. Information given to District Authority.
- More involvement of ASHAs and BPMUs.
- Medicines/Drugs and condoms to be given with prescription to each and every Client by Medical Officer Trainees.
- Counseling to be done by the MO trainees.
- Functional Autoclave to be used to avoid the infection from HIV or other diseases to the clients.
- Each trainee to handle minimum 10 Clients during the 5 days training which is mandatory.
- OT room with proper lighting system.
- Proper maintenance of Clients record.
- To conduct Client case audit by QAC members as per Gol, Sterilization Manual Guidelines.
- Minimum target of the camp is 10 Clients per day to be fulfilled.
- State trainer suggested providing fund for post training follow-up to the district (Same as Client Audit by QAC).
- Training to be planned well before 2 or 3 weeks in consultation with State trainers, District team (including DPMUs) and timely intimation of training Schedule to the State and nominated MO trainees.
