

I heard that in shaking hand, by talking, by walking together and dancing together may cause sexually transmitted infection.

Threat of violence is only for the girls.

Anybody either boy or girl should kept concealed for the teasing or violence act done to her/him to prevent from more violence or teasing in future.

Any of the boys/girls are discriminated or violated because of his/her religion, nationality, locality, handicapped or sexual-bias, marital status it does not prohibited his/her right..

To construct sanitary latrine inside the house is against the tradition.

For PE it is not necessary to honour the thoughts and thinking of the boys/girls junior to him/her.
